

Student Survey Breakout Session

Session Overview

15 Minutes: Your feedback on student outcome measures

20 Minutes: Small group discussions of the research skill measures

10 Minutes: generate list of important skills for your teams

10 Minutes: provide feedback on our current list of research skills

20 minutes: Information about participation, taking your questions

Student learning outcome measures

Current Major Outcome

Categories:

- Interdisciplinary competence
- Teamwork
- Design skills
- Research Skills/Knowledge

Questions for Group

Discussion:

- How do these major outcomes for VIP experiences compare to what major outcomes you would expect students to develop on your team?
- Is there anything missing?

Research Skills

Part 1 (10 minutes):

Generate a list of the research skills you want/expect undergraduate students to develop through participation in your VIP team(s)

Part 2 (10 minutes):

Compare your list to the list from our pilot study. What's missing? What might we omit (it isn't something many VIP students are likely to develop)?

Our Team will do most of the work -- At no direct cost to you!

- All data collection, file management, analyses (of aggregate data), and reporting
- Coordinate with a campus liaison to obtain VIP student contact information
- Ensure secure storage and transfer of student data
- Combine data across all institutions to analyze student experiences in VIP teams collectively
- Ensure consistency in data collection

What will institutions receive?

- 1) Your institution's dataset, including:
 - Students' motivations for joining VIP
 - VIP team activities
 - Who students work with on VIP teams
 - Student major and career plans
 - Student learning outcomes
- 2) An Executive Summary of cross-site findings

Datasets and the Executive Summary will be distributed in late 2017.

What are institutions asked to do?

- Contact Mackenzie Wood regarding participation by **May 27th**
- Require all VIP students to participate in the student surveys
- Provide basic demographic information for all VIP students
- Appoint a campus liaison by July, 2016 to provide student information and inform students of survey requirement
- Either 1) cede IRB approval to Georgia Tech, or 2) obtain IRB approval at your home institution (July, 2016)
- Allow us to list your institution as a participant in the VIP Cross-Consortium Student Survey

Next steps

- Talk to your Site Administrator about participation
- Contact your IRB or Site administrator to ask if 1) if your institution will cede IRB approval to Georgia Tech, OR 2) if you must apply for approval through your campus IRB.
- Contact Mackenzie Wood (mwood2009@gatech.edu) about participation by May 27
- Identify a campus liaison to work with the Evaluation Team (from summer 2016 through winter 2017) – Site administrator or another individual?
- IRB approval must be in hand by July 1, 2016.

Questions about Student survey Participation?
