## Whats discord nitro generator:

Discord Nitro is a paid monthly add-on for Discord, a popular free voice and text chat application for gamers. We've moved away from Teamspeak and Ventrilo and into a Discord-based world. Anyone may now start their own Discord server and connect with their friends, guild members, and other users without having to pay for a TS or Vent server. Nitro, Discord's premium subscription, costs \$9.99 per month or \$99.99 per year (2 free months), or \$4.99 per month or \$49.99 per year for classic (2 months free). You get the following benefits (read them over and see if they appeal to you).
